## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to claim 19 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claim 19 is rejected under 35 U.S.C. 102(e) as being clearly anticipated by Yoshinobu (U.S. Patent No. 5,686,954).

Referring to claim 19, Yoshinobu discloses a system for processing program information (see Figure 10), comprising program information including an index for retrieving a program, and transmitting or receiving the program information (Column 13, Lines 44-53 and Column 14, Lines 33-46 and Lines 61-67 and Column 15, Lines 1-10).

### ***Allowable Subject Matter***

Art Unit: 2611

3. Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to independent claim 1, the prior art of record fails to anticipate or rendered obvious a program display means with two axes, where each axis comprises options (attributes) for customizing the EPG, and that upon selection of an attribute on each axis, customization of the EPG is preformed. Therefore, in view of these limitations and because sixth paragraph limitations have been presented, which adds further limitation to a "program table display means" (see M.P.E.P. 2181 and applicant's specification in relation to a "program table display means") the claim has been deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claims 20-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Referring to claim 20, the prior art of record fails to teach maintaining a user attribute that is used to retrieve program information along with the index for retrieving a program.

### ***Conclusion***

Art Unit: 2611

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Rowe et al. (U.S. Patent No. 5,812,123) discloses an EPG with two attributes for customizing the guide, but the attributes reside on only one axis.

Ohkura et al. (U.S. Patent No. 6,005,601) discloses an EPG with rotational area's that can be used to customize the content of the program guide, but around only one axis.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason P Salce whose telephone number is (703) 305-1824. The examiner can normally be reached on M-Th 8am-6pm (every other Friday off).

Art Unit: 2611
